Rajasthan, India

SUMMARY

Computer Engineering student with hands-on experience in Backend Development and MERN Stack, specializing in building robust web applications, secure authentication systems, and efficient server-side solutions. Strong foundation in Data Structures and Algorithms with a focus on writing clean, maintainable code. Seeking an entry-level Software Engineer role to contribute to real-world, high-impact projects.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, JavaScript
- **Frontend Technologies:** HTML, CSS, React.js
- **Backend Technologies:** Node.js, Express.js, JWT Authentication
- **Databases & Tools:** MongoDB, SQL, Git, GitHub
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), CRUD, SDLC, Debugging, Code Review

EXPERIENCE

MERN Stack Developer Intern

May 2024 – July 2024

Zeetron Network Private Limited, Jaipur, Rajasthan

- Developed and deployed 3+ production-ready full-stack web modules using MongoDB, Express.js, React.js, and Node.js.
- Designed and integrated RESTful APIs to enhance backend-to-frontend communication efficiency.
- Collaborated with senior engineers on backend logic and system architecture.
- Resolved bugs and refactored components to optimize server response time and user experience.

PROJECTS

UserHub – Backend User Management REST API

Dec 2025 – Jan 2026

Engineered a RESTful API using Node.js and Express.js with Model-View-Controller (MVC) architecture. Integrated token-based authentication, role-based access control, CRUD operations, validation, and error handling for secure user management.

Source Code: [GitHub Repository](#)

Scatch – Premium Bag Shop

Feb 2026 – Mar 2026

Built a full-stack e-commerce web application using Node.js, Express.js, MongoDB, and server-side templating. Implemented token-based authentication, product management, cart functionality, file upload handling, and dynamic database management using an object modeling library.

Supermarket Billing System – C++, Object-Oriented Programming

Jan 2026 – Feb 2026

Developed a supermarket billing system in C++ using OOP principles, incorporating billing, inventory management, receipt generation, and role-based admin/user access for secure data handling.

EDUCATION

Jodhpur Institute of Engineering & Technology (JIET), Jodhpur, Rajasthan

2023 – 2027

Bachelor of Technology – Computer Science and Engineering

CGPA: 7.96 / 10

CERTIFICATIONS

- MERN Stack Development – Zeetron Network Private Limited (2024)
- Ethics in Engineering Practice – NPTEL, IIT Kharagpur (2025)
- Category Winner – RECKON 7.0 Innovation Event, JIET Universe (2026)
- Attendance Topper – JIET Universe, Session 2023–24
